

Keeping Our Patients Safe

Your health and safety are our top priority. That's why we're closely following recommendations from the CDC and the American College of Radiology.

- All patients must wear a mask to their appointment. Our team is required to wear them too.

- Patients should preregister for all imaging appointments through our online Patient Portal. This reduces time spent in our waiting areas.

- We will pre-screen all patients for COVID-19 symptoms and risk factors before they enter our offices.

- Our waiting areas have been re-arranged to allow for physical distancing.

- We sanitize all registration iPads and imaging equipment between each patient. We are disinfecting common surfaces like door handles and bathrooms throughout the day and deep cleaning our offices every night. All of our cloth gowns and linens are professionally cleaned off-site.

- We are scheduling more time between appointments to reduce the number of patients in our offices at one time. All visitors must wait for patients outside the building or in their vehicle.
